Mobile Application Developer with 4+ years of experience designing and developing scalable, production-ready mobile applications using Flutter and Dart, with solid understanding of Native Android (Kotlin). Experienced in building maintainable cross-platform applications while collaborating in Agile development environments.

CORE SKILLS

Native Android | Kotlin | XML Layouts | Jetpack Compose | Navigation Component | ViewModel.

Dart | Flutter | Android | iOS | Cross Platform Development | Clean Architecture, MVVM | Riverpod, Provider, Bloc, GetX, Redux | API integration | Shared Preference and Secure Storage | Offline Data Management | Firebase Push Notifications, REST APIs and JSON based Services, Sockets, Platform Channels | Asynchronous Programming, Isolates, WorkManager | Git, GitHub | GitLab, SVN, Agile/Scrum, Jira | Flutter Migration, Hive, Sqlite | IoTs & Bluetooth | Agentic Coding | TensorFlow Lite | Basic Understanding of CI/CD Pipeline, Testing, Java, AWS EC2 and S3.

EXPERIENCE

RAG Technologies,

Kochi, Kerala

Freelance Software Developer

May 2026 - Present

- Designed scalable Flutter modules using Clean Architecture and MVVM, improving maintainability across multiple enterprise applications.
- Expanded technical expertise by learning Native Android development with Kotlin.

Bayasys InfoTech Pvt Ltd,

Kochi, Kerala

Software Developer

March 2023 - May 2026

- Coordinated release on both Apple store deployment and Google Play Store deployment of more than 6 applications.
- Worked with iOS project configuration, CocoaPods dependency management, and Xcode debugging tools.
- Developed and maintained 6+ production flutter applications.
- Developed and maintained enterprise Flutter applications serving 1,000+ active users.
- Led the end-to-end implementation of GitLab, successfully migrating from Subversion (SVN) to enhance version control workflows.
- Worked in an Agile (Scrum) environment with 3-week sprints, delivering features consistently.

- Transforming the features of web-based ERP products into our mobile applications, aligning closely with their workflow.
- Optimized existing Firebase notification for better performance.
- Integrated flutter application with weighing machine using BLE and Bluetooth Classic.
- Developed and maintained unit tests to ensure code quality and reliability.
- Worked with sockets for real-time communication features.
- Implemented Platform Channels (MethodChannel and EventChannel) for communication between Flutter and native Android (Kotlin/Java) and iOS (Swift/Objective - C).
- Trained in unit testing and software testing practices.

Skyewall

Kochi, Kerala

Software Developer

February 2022 - February 2023

- Maintenance and development of houseboat booking applications.
- Responsive UI and enforced a booking feature for reserving houseboats, kayaking boats, and rentals. Created a seamless user experience for both vendors and customers

Highminds Systems India Corporation

Bengaluru, Karnataka

Freelance Software Developer

February 2022 - October 2022

- Contributed to implementing features using (IoT) Internet of Things.
- Configured real-time communication of embedded devices.
- Integrated IoT (Internet of Things) devices such as PSoC, ESP32, STM32 using Bluetooth Low Energy (BLE).
- Developed a feature for remotely controlling devices in the Flutter app.

KEY PROJECTS

Redawa ERP Suite | Bayasys Infotech Pvt. Ltd.

Technologies: Flutter, Riverpod, Bloc, Provider, Clean Architecture, MVVM, Firebase, Bluetooth Classic, REST API Integration, PostgreSQL, SQLite,Dio and HTTP

- Developed and maintained enterprise Flutter applications serving **1,000+ users** across ERP, Agriculture, E-Commerce, Supplier Management, and Product Tracking.
- Built reusable library/modules (Micro frontend) for Chat, Notifications, and Bluetooth integration.
- Built applications in Dart and handled API Integration. APIs were developed with Java by the team across multiple projects.The API was integrated using HTTP and Dio was used for the Multipart Request.
- Implemented offline-first functionality using SQLite, Bluetooth Classic integration, secure authentication, and Firebase Cloud Messaging.

- Published and maintained applications on Google Play Store and Apple App Store.

Applications Link: [Redawa Applications](#)

Keechery Project Management System | Bayasys Infotech Pvt. Ltd.

Technologies: Flutter, Riverpod, Clean Architecture, Hive, .Net Core API, Postgresql, REST API Integration, Dio and HTTP.

- Developed the application from scratch using Flutter and Clean Architecture.
- Built applications in Dart and handled API Integration. APIs were developed using .Net Core by the team. The API was integrated using HTTP and Dio was used for the Multipart Request.
- Built modules including Project Management, Dashboard Analytics, Support Requests, Observations, and an offline-first Document Management System.
- Implemented background synchronization for documents using REST APIs.

Houseboat Booking Application | Skyewall

Technologies: Flutter, REST API Integration, HTTP.

- Developed and maintained a tourism booking application for houseboats in Alappuzha.
- Built responsive user interfaces for customers and vendors.
- The API was integrated using HTTP and Dio was used for the Multipart Request.
- Developed mobile applications using Dart, along with API Integration. APIs were developed using Node.js, Express.js, and MongoDB (MEN stack) by the team.
- Implemented booking workflows for houseboats, kayaking, and rental services.
- Enhanced user experience through intuitive navigation and responsive layouts.

Smart RO/UV IoT Monitoring System | Highminds Systems

Technologies: Flutter, Bloc, BLE, IoT, ESP32, STM32, REST API Integration.

- Developed a Flutter application for remote monitoring and control of smart RO/UV water purification systems.
- Developed mobile applications using Dart and handled API Integration. APIs were prebuilt. The API was integrated using HTTP.
- Integrated BLE communication with IoT devices to monitor water level, purity, and mineral content.
- Implemented real-time device monitoring and remote ON/OFF controls.

EDUCATION

Bharathiar University, Coimbatore, India

March 2018 - December 2021

Bachelor of Science in Computer Science
