Flutter Developer with 4+ years of experience building scalable cross-platform mobile applications using Flutter and Dart. Experienced in Clean Architecture, MVVM, Firebase, REST APIs, Sockets, and IoT-based solutions. Proven track record of delivering production-ready applications in Agile environments. Strong team player with experience handling multiple projects simultaneously.

TECHNICAL SKILLS

Dart | Flutter | Clean Architecture, MVVM | Riverpod, Provider, GetX, Redux | Firebase Push Notifications, REST APIs, Sockets, Method Channels | Asynchronous Programming, Isolates, WorkManager | GitLab, SVN, Agile/Scrum, Jira | Flutter Migration, Hive, Sqlite | IoT & Bluetooth | Basic Understanding of AWS EC2 and S3.

EXPERIENCE

RAG Technologies, Kochi, Kerala

May 2026 - Present

Freelance Software Developer

- Apple store deployment and Google Play Store deployment.
- Maintaining the production applications.
- Coordination of new feature implementation.

Bayasys InfoTech Pvt Ltd, Kochi, Kerala

March 2023 - May 2026

Software Developer

- Coordinated release on both Apple store deployment and Google Play Store deployment.
- Led the end-to-end implementation of GitLab, successfully migrating from Subversion (SVN) to enhance version control workflows.
- Worked in an Agile (Scrum) environment with 3-week sprints, delivering features consistently.
- Transforming the features of web-based ERP products into our mobile applications, aligning closely with their workflow.
- Optimized existing Firebase notification for better performance.
- Integrated flutter application with weighing machine using BLE and Bluetooth Classic.
- Applied Clean Architecture and MVVM to craft robust and scalable applications.
- Worked with sockets for real-time communication features.

Skyewall, Kochi, Kerala

February 2022 - February 2023

Software Developer

- Maintenance and development of houseboat booking applications.
- Responsive UI and enforced a booking feature for reserving houseboats, kayaking boats, and rentals. Created a seamless user experience for both vendors and customers

Highminds Systems India Corporation

Bengaluru, Karnataka

Freelance Software Developer

February 2022 - October 2022

- Contributed to implementing features using (IoT) Internet of Things.
- Configured real-time communication of embedded devices.
- Integrated IoT (Internet of Things) devices such as PSoC, ESP32, STM32 using Bluetooth Low Energy (BLE).
- Developed a feature for remotely controlling devices in the Flutter app.

KEY PROJECTS

[Redawa Applications](#) : ERP mobile applications. My work involved maintenance, migration integrating new features and web app based features. The client was based in Ethiopia.

EDUCATION

Bharathiar University, Coimbatore, India

March 2018 - December 2021

Bachelor of Science in Computer Science
